

DOCENCIA EN INGLES

First and second cycle units taught in other languages. - Academic year 2011-2012

Center	Degree	Unit
H.T.S. Engineering	Industrial Engineering (Plan 98)	Automatic Control
	Industrial Engineering (Plan 98)	Analysis of thermodynamic industrial processes
	Industrial Engineering	Automatism
	Telecommunication Engineering	Automatism
Faculty of Tourism and Finance	Diploma in Business Studies (Plan 2002)	Tax Law
Faculty of Biology	Degree in Biology (Plan 99)	Ecology of Vegetation
Faculty of Physics	Degree in Physics (Plan 98)	Nuclear and Particle Physics
Faculty of Mathematics	Degree in Mathematics (Plan 98)	(Co) Singular Homology

Undergraduate units taught in English.- Academic year 2011-2012

Center	Degree	Unit
H.T.S. Engineering	Degree in Aerospace Engineering	Fluid Mechanics I
	Degree in Computer Engineering, Computer Engineering	Electronic Circuits and Instrumentation
		Physical Principles of Computers
		Introduction to Discrete Mathematics
		Infinitesimal and Numerical Calculus
		Linear and Numerical Algebra
		Computer Structures
		Programming Principles
		Analysis and Design of Data and Algorithms
		Introduction to Software Engineering and Information Systems
		Computer Networks
		Operative Systems
		Design of Digital Systems
		Computer Technology
		Discrete Mathematics
		Computer Architecture
		Programming Principles
		Infinitesimal and Numerical Calculus
		Electronic Circuits and Instrumentation
		Physical Principles of Computer
		Introduction to Discrete Mathematics
		Linear and Numerical Algebra
		Computer Structures
H.T.S.Computer Engineering	Degree in Computer Engineering, Software Engineering	Analysis and Design of Data and Algorithms

Center	Degree	Unit
	Degree in Computer Science-Information Technology	Introduction to Software Engineering and Information Systems
		Computer Logic
		Discrete Mathematics
		Computer Architecture
		Systems Architecture and Integration
		Computer Networks
		Operative Systems
		Programming Principles
		Infinitesimal and Numerical Calculus
		Electronic Circuits and Instrumentation
	Degree in Computer Science-Information Technology	Introduction to Discrete Mathematics
		Linear and Numerical Algebra
		Computer Structures
		Physical Principles of Computers
		Computer Logic
		Networks Architecture
		Analysis and Design of Data and Algorithms
		Introduction to Software Engineering and Information Systems
		Computer Networks
		Operative Systems
	Degree in Computer Science-Information Technology	Discrete Mathematics
		Computer Architecture
H.T.S. Building Engineering	Degree in Engineering Building	Descriptive Geometry I
		Descriptive Geometry II
		Construction History and Introduction to Construction
		Applied Mathematics in Construction I
		Applied Mathematics in Construction II
		Surveying and Mapping
		New Technologies in Architectural Surveying
Faculty of Tourism and Finance	Degree in Finance and Accounting	Cost Accounting
		Fundamentals of Accounting
		Fundamentals of Operations Management
		Economic History
		Introduction to Economics
		Introduction to Finance
		Mathematics
		Microeconomics
		Management Accounting
		Statistics I
		Macroeconomy
		Financial Mathematics
		Company Tax Systems
		Systems and Financial Markets
		Financial Statement Analysis I

Center	Degree	Unit
		Statistics II
		Introduction to Auditing
	Tourism Degree	Fundamentals of Accounting
		Introduction to Finance
		Management Accounting in the Tourism Industry
		Administrative Law for the Tourism Industry
Faculty of Physics	Degree in Physics	Statistics
		Mathematical Analysis
		Mathematical Methods I
		Chemistry
		Mathematical Methods II
		Quantum Physics
Faculty of Psychology	Degree in Psychology	Matemactical Physics
		Design and Data Analysis in Psychology I
		Fundamentals of Psychobiology
		Fundamentals of Learning and Behavior
		Fundamentals of Methodology in Psychology
		Systemic Psychobiology
		Psychology of Attention and Perception
		Psychology of Memory
		Psychology of Motivation and Emotion
		Group Psychology
		Social Psychology
		Design and Data Analysis in Psychology II
		Fundamentals of Psychopathology
		History of Psychology
		Psychobiology of Cognitive Processes
		Educational Psychology
		Organizational Psychology
		Physiological Psychology
		Human Development and Intrevention Contexts
		Psychological Assessment
		Behavior modification of children, adolescents and adults
		Psychology of Social and Community Intervention
		Psychology of thought and language
		Psychometry
Faculty of Chemistry	Degree in Chemistry	Clinical psychopathology
		Psychotherapies
		Developmental Disorders
		Analytical Chemistry II
		Inorganic Chemistry II
		Organic Chemistry II
		Organic Chemistry III
		Chemical Engineering

Center	Degree	Unit
Faculty of Philology	Degree in English studies	English language I
		Cultural studies I
		Cultural studies II
		English language II
		English phonetics and phonology
		Discourse analysis and literature
		English literature I
		Instrumental English I
		English morfo-syntax I
		English literature II
		North American literature I
		Instrumental English II
		Morfo-syntax English II
		North American Literature II
		English language History
		English Literature III
		Learning English Principles
		Supersegmental Phonetics
		New technologies applied to English language
		Poetry I
		Anglo-North American Literary Criticism
		Translation English-Spanish. Principles and Practice
		Contrastive Analysis English – Spanish
		Narrative I
		Theatre I
		English semantics and pragmatics
		English literature IV
		Variations of current English Sociolinguistics and History
		Psycholinguistics applied to English as a 2nd language
		Generative grammar
		Poetry II
		Narrative II
		Theatre II
		Syntactic Argumentation
		Teaching English Methodology
		Communication and Discourse
		Other Anglo-North American cultural expressions
		Gender and literature
		Literary translation

Center	Degree	Unit
Master. Academic year 2011-2012		
Faculty of Philology	Master in English Studies	Accents of English
		Alternative Stories of English: Northern English
		Attitudes towards Standard English and Other Varieties
		Approaches to the Explanation of Language Change
		Intra-Personal Variation and Change in English Speakers
		Variation and Perspectives in Syntactic Analysis opposed to Standard English
		Individual Differences in Second Language Acquisition
		Textual Typology and English-Spanish Translation
		Production, Interpretation, and Intercultural Differences (English-Other Languages)
		The Use of English in Institutional Settings
		Practicum in English Language and Linguistics
		Critical Edition of English Drama: A Workshop
		Critical Approaches to Literature
		Charting Contemporary Culture: The Postmodern Perspective
		Irish Literature: From Orality to Modernism
		Irish Literature: From Modernism to Postmodernism
		Contemporary Irish Literature
		Authors, Critics and Readers in 19th Century North-American Literature
		Apocalyptic Narrative in North-American Science Fiction
		A Decade of Wonders: The American Sixties and its Culture
		Contemporary Adaptations of Medieval Culture
		The Drama of Shakespeare's Contemporaries
		Contemporary Anglo-American Theatre: Performing Selves
		Master thesis
		Variety and Diversity in the English Language and Culture
		Research Methods in English Studies
	Master in Spanish and second language and others foreign languages	Current Methodological Choices in Teaching English as a Second Language
